EDUCATION

Certificate in Information Technology, Web Development

Completed June 2018

Thompson Rivers University, Kamloops, B.C.

Grade Point Average 4.09

Key Projects:

- ~ *User Interface Design* - Using UX design principles and user-testing techniques, developed storyboards, dialogues, and both low and high fidelity prototypes for an Android goal-setting application.
- ~ *Online Magazine* - Designed and implemented a dynamic, online magazine using responsive and mobile-first design principles; maintained compliance with web standards for accessibility and user conventions.

PROFESSIONAL DEVELOPMENT

Lynda.com

- ~ *WordPress development series with Morten Rand-Hendriksen* - Learned how to build and maintain WordPress sites, how to create themes and templates, and how to customize post types.
- ~ *Android development series with David Gassner* - Learned how to develop applications for the Android environment, including the use of local storage and architecture components.

PROFESSIONAL EXPERIENCE

Freelance Development, Kamloops, B.C.

January 2019 – present

Web Developer

Work with clients to design, code, modify, and maintain websites, from layout to function and according to agreed upon specifications. Create visually appealing sites that feature good interface design, clear navigation, and compliance with Web standards.

Little Ducklings Childcare, Kamloops, B.C.

September 2007 – August 2015

Childcare Provider and Business Owner

Worked with clients to provide high-quality care for children. Required the use of interpersonal communication, problem solving, managerial skills, and program design. Although the business was successful, I chose to close it in order to pursue a creative career.
